

FROM VISION 2020 TO FUTURE PERSPECTIVES

DISEASE DIAGNOSTICS AND THERAPY

Thursday, March 28, 2019, 17:00 h
Lecture Hall Y03 G91
University of Zurich, Irchel Campus
Eugenio Biglieri
MRI Marketing Director at Esaote, Genoa, Italy

Impact of functional weight-bearing MRI on diagnosis and therapy

Magnetic Resonance Imaging is one of the most fascinating technologies in diagnostic imaging. Its clinical applications range from neurological study of tumor or degenerative disorders to the study of ankle sprain or feet painful syndromes, covering the whole body.

The presentation will focus on orthopedic and weight-bearing MRI, a very innovative approach to study patients in the standing position, and the potential clinical applications.

The presentation is followed by an aperitif and - for a limited number of students - by a dinner with the speaker. For the dinner, contact elisabetta.biglieri@uzh.ch not later than March 27, 2019 by explaining why you would like to meet the speaker.

Organization

The event series From Vision 2020 to Future Perspectives is organized by a committee of PhD students of the PhD Program in Integrative Molecular Medicine (imMed):
Institute of Physiology UZH: Tobias Hasler (chair) | Amalia Ruiz Serrano (chair)
Sophie Dahl | Ilaria Orlando
Institute of Physiology UZH: Elisabetta Biglieri | Merel van Gogh from the PhD Program Cancer Biology
URPP Global Change and Biodiversity: Maria Parreño
Supported by the SUK Program "Doktoratsprogramme".
